WORK EXPERIENCE

Data Scientist Intern (Part-time Summer Internship)

ORACLE

05/2021 - 08/2021

Remote

Oracle is a computer technology corporation best known for its software products and services like Java.

Achievements/Tasks

- Performed data mining in Adobe Analytics ® for the OCI Console Org team.
- Analyzed Adobe Analytics reports and discussed findings with deployment team.
- Used pagenames to upload into AA to discover the number of clicks, occurrences, and other user data.
- Took full ownership of analytics for the OCI Console dashboards application and demoed my findings to the deployment team.
- Scheduled meetings with PM's to understand the project goals.
- Participated in debugging sessions to find problems with the new dashboards feature.

Contact : Suyesh Chaudhari - suyesh.s.chaudhari@oracle.com

Software Engineer OCI Intern (Part-time Summer Internship)

ORACLE

06/2020 - 08/2020

Remote

Oracle is a computer technology corporation best known for its software products and services like Java .

Achievements/Tasks

- Helped build the new test cloud infrastructure (Shepherd) environment for upcoming project.
- Wrote code and designed efficient data structures and algorithms to develop next-generation applications and tools.
- Helped deploy code into their new platform called Shepherd. Learned all the ins and outs of Shepherd and creating test flocks.
- Learned about different cloud infrastructure products such as virtual machines, object store and file systems; SDN, Load Balancers, DNS, Oracle's clients (One of the most interesting ones was Agroscout).
- Also participated in the agile and scrum work methods. Met with my mentors every day to review my progress on my OCI assignment.

ACHIEVEMENTS

Student Panel Speaker

One of six students chosen to speak to new and prospective parents and students for the Calverton School.

Dean of Students Hiring Committee

Hand-picked by the faculty to serve on a committee of five to help choose the new Dean of students. I was one of two students selected to help with the interviewing process.
